RESTORATION

BORMA WACHS®
Wood Professional Cosmetics
& Eco-Finishes

Company

We manufacture professional wood cosmetics for an eco-friendly way of life.

For decades BORMA WACHS has been working in the wood care and synthetic surface treatment sector with a sense of responsibility and constant commitment to pursuing three fundamental principles: quality, reliability and flexibility. The dynamism, production capacity, safety and marketability of our products characterise our company profile. As specialists in the professional cosmetics of wood and synthetic surfaces, we offer our customers only the best of the best.

Certifications

Our products and manufacturing cycles are regularly tested and approved by international institutes.

VOC FREE

All Borma Wachs branded products comply with the latest European legislation on emissions of potentially harmful substances into the atmosphere and have total regard for the environment and the health and wellbeing of our workers and our customers. With the new ECO PREMIUM - VOC FREE line we are able to offer an uncompromising range, with 100% natural and biodegradable products, with a VOC content reduced to zero.

IBR CERTIFICATIONS

Borma Wachs products are tested and approved by the Rosenheim Institute for Green Building. The analyses carried out certify our products regarding the content of VOC's, biocides, heavy metals and radioactive material guaranteeing their eco-compatibility with the principles of Green Building. The Company always aims to understand the needs and sensitivity of customers, trying to better interpret the request for sustainable and environmentally friendly treatments coming from the use of renewable raw materials, in order to reduce as much as possible the impact on environment and on the health of users and all stakeholders in our communities.

EN71.III CERTIFICATION

The Danish laboratories of Eurofins have recognised the compliance of Borma Wachs oils with the EN 71- III regulation on the migration of heavy metals harmful to health, ensuring the safety of the treatments to the point of allowing their use for finishing or maintenance of toys for children.

Restoration

To Renew Time Itself

The goal of restoration is to recreate the object, its physical structure as well as aesthetic qualities. Consolidations, disinfections and all the basic actions on the surface can be performed with maximum ease, care and efficiency, while respecting the environment, man and our traditions. All thanks to specially designed formulas that combine experience and research.

HOLZFARBE - Concentrated Colourant for use in Water or Solvent

Perfect stain for all internal wooden surfaces. All the available shades give brightness to the wood, enhancing its grain. The concentrate is ready for use and its characteristics make it the ideal substitute for the classic (aniline) powders, avoiding pre-processing and harmful inhalation of powders. The Concentrates can be diluted with thinner, alcohol, acetone or water with a maximum ratio of 1 to 6. Pure, after preliminary testing, it can be used as a dye for tinting transparent lacquers.

Naturaqua HOLZFARBE - Universal Stain Concentrate /Interiors and Exteriors

A Special water based liquid stain of high strength and light resistance used to colour directly raw wood as well to Tint Basecoats or Topcoats of the NATURAQUA RANGE. Due to its particular formula the stain can be used for Interior as Exterior projects, keeping a good colour brightness till a max suggested dilution ratio 1-1. Ready for use can be diluted with water, alcohol, acetone and other polar solvents, once dry allows to be overcoated with any type of lacquer waterborne, thinner based or PU.

HARD TOP POLISH NATURAL – High Resistance Shellac Lacquer

A special polish based on dewaxed shellac, with superior chemical resistance compared to classic shellac lacquers. The high solid content, supported by completely natural resins, guarantees a superior seal over time and a lower sensitivity to humidity compared to classic shellac coatings. It is ideal for all those substrates subject to heavy wear and on which you want to keep the aesthetic uniqueness of shellac. Ready to use and colourless, it can be coloured with the addition of small quantities of concentrated Holzfarbe dye.
